

Subject Index Volume 69

- Adipose tissue
 - in HIV-infected patients, 1162
 - 7-y stability of indicators of, 1123
 - in young adults, racial differences in amounts of, 381
- Adiposity
 - familial, 608
 - regulation of by central nervous system, 584
- Adolescents
 - calcium absorption in, oligofructose and, 544
 - female, iron and folate supplementation in, 1069(Editorial)
 - lipid and insulin concentrations in, 308
 - Malaysian female, iron-folate supplementation in, 1249
 - measurement of energy expenditure in, 1209
- Age
 - and body fat, 1007
 - effect on cholecystokinin, GLP-1, and peptide YY, 999
- Air-displacement plethysmography, and body composition assessment, 898
- Alcohol
 - adverse interactions with vitamin A and β -carotene, 1071
 - appetizing effect of aperitif, 205
 - and body weight, 173(Editorial)
 - and coronary heart disease, 2(Editorial)
 - wine intake, and diet in Danish population, 49
- American Indians, children
 - body composition assessment in obese, 764S
 - culturally appropriate obesity prevention program, 796S
 - family intervention for obesity in, 803S
 - food service intervention for, 810S
 - obesity in, 747S
 - design and statistical analysis for Pathways study, 760S
 - multisite formative assessment for the Pathways study, 767S
 - practicing participatory research and, 755S
 - process evaluation in, 816S
 - questionnaire to assess knowledge, attitudes, behaviors in, 773S
 - physical activity assessment, 788S
 - portion-size estimation and, 782S
- Amino acids. *See also specific amino acid*
 - effects on fetal growth and maternal and fetal amino acid pools in experimental phenylketonuria, 687
- Anemia
 - early childhood, and mild or moderate mental retardation, 115
 - iron deficiency, and mental retardation, 4(Editorial)
 - nutritional, iron-folate supplementation and, 1249
- Anorexia nervosa, riboflavin in, 672
- Antioxidants
 - and lipid peroxidation in smokers, 1293(Letter)
 - and lung cancer, 1345S
 - and risk of myocardial infarction, 261
 - serum, and incidence of nuclear cataract, 272
 - in tomato, 712
 - vitamin C, recommended dietary allowance for, 1086
- Antioxidative status, fruit juice intake and, 87
- Appetite, effects of small-intestinal fat and carbohydrate infusion on, 6
- Barley, and alimentary lipemia, 55
- Bioelectrical impedance analysis, 898
 - and assessing change in body composition, 603
 - plethysmographic, of body composition in critically injured, 426
- Biotin, bioavailability of, 504
 - estimated average requirement, 352(Editorial)
- Body composition
 - assessment
 - air-displacement plethysmography, hydrostatic weighing, and bioelectrical impedance analysis, 898
 - leg-to-leg bioelectrical impedance method for, 603
 - bioelectrical impedance plethysmographic analysis of, in critically injured, 426
 - in children, 904
 - ethnicity and energy expenditure in, 43
 - in HIV-infected children, 1282
 - influences of sex, race, environment, and HIV infection on, 432
 - meta-analysis of resting metabolic rate in formerly obese subjects, 1117
 - and mortality in men, 373
 - and physical training in obese children, 705
- Body fat
 - and age, 1007
 - dietary variety and, 440
 - distribution, and glycemic status in Canadian aboriginal population, 455
- Body mass index
 - and cataract, 237
 - and glycemic status in Canadian aboriginal population, 455
 - HDL cholesterol and, 614
 - hydration of fat-free mass, 833

- 7-y stability of indicators of obesity, 1123
- Body size, in infants, energy intake and, 524
- Body weight. *See also* Weight gain; Weight loss and alcohol intake, 173(Editorial)
- Bogalusa Heart Study, 308
- Bone density
total-body, 1289(Letter)
vitamin K and hip fractures in women, 74
potassium, magnesium, and fruit and vegetable intake and, 727
in young women, milk intake and, 1014
- Bone mineral content, in preterm infants measured at full-term age, 154(Letter)
- Bone mineral density
potassium, magnesium, and fruit and vegetable intake and, 727
total-body, 1289(Letter)
vitamin K and hip fractures in women, 74
in young women, milk intake and, 1014
- Book reviews
Advanced Nutrition Micronutrients, CD Berdanier, 161
IARC Handbooks of Cancer Prevention: Carotenoids, IARC Working Group on the Evaluation of Cancer Preventive Agents, 344
Nutrients and Foods in AIDS, RR Watson, 161
Nutrition for Sport and Exercise, JR Berning, SN Steen, 578
Nutrition, Health, and Child Development: Research Advances and Policy Recommendations, SM Grantham-McGregor, 578
Pediatric Nutrition Handbook, Committee on Nutrition, American Academy of Pediatrics, RE Kleinman, ed, 579
Peptides in Mammalian Protein Metabolism: Tissue Utilization and Clinical Targeting, GK Grimble, FRC Backwell, 580
Role of Trace Elements for Health Promotion and Disease Prevention: Proceedings of the 1996 Annual Meeting of the European Academy of Nutritional Sciences, B Sandström, P Walter, 344
- Breast milk. *See* Milk, human
- Breast-feeding. *See* Lactation
- Butterfat, chylomicrons from, plasma clearance of, 1151
- Calcium
absorption
triacylglycerols and, 1237
oligofructose and, 544
excretion, in children and adolescents, 742(Letter)
glycerophosphate, -supplemented infant formula, to prevent lead absorption, 1224
nephrolithiasis, dietary protein restriction, 267
supplementation, for prevention of lead absorption, 1224
Calorimetry, and measure of variations and determinants of energy expenditure, 1209
- Campbell's Survey, 1123
- Canada Fitness Survey, 1123
- Cancer
dietary fat and, 1357S
lung, β -carotene and, 1345S
prevention, antioxidants and, 1086
- Candida albicans*, sugar uptake and, 1170
- Capillary blood, for hemoglobin assessment, 1243
- Carbohydrates
at breakfast meals, and glucose tolerance at lunch, 647
and intestinal *Candida* counts, 1170
and lactose intolerance, 973
loading, euglycemic clamp to assess posthepatic glucose appearance after, 1183
- Carcinogenicity, interactions of alcohol, vitamin A, and β -carotene and, 1071
- CARDIA (Coronary Artery Risk Development in Young Adults) Study, 381
- Cardiorespiratory fitness, and mortality in men, 373
- Cardiovascular disease
mortality, in men, 373
prevention, antioxidants and, 1086
risk factors for
National Cholesterol Education Program Step I and Step II diets and, 632
in premenopausal women, 621
tocotrienols and, 213
- β -Carotene
adverse interaction with alcohol, 1071
and breast milk immune factors, 953
-fortified biscuits and micronutrient status of children, 497
and lung cancer, 1345S
- Carotene and Retinol Efficacy Trial, 1071
- Carotenoids
and incidence of nuclear cataract, 272
and lung cancer, 1345S
- Case-control study, in nutritional epidemiology, 1315S
- Cataract
anthropometric status and, 237
incidence of nuclear, antioxidants and, 272
- Causation, of nutritional epidemiology, 1309S
- Celiac disease, 354
villous atrophy and nutritional status in, 573(Letter), 574(Letter)
- Cellular immune response, vitamin E supplementation and, 1273
- Children. *See* Pediatric population
- China, women, osteoporosis in, 1291(Letter)
- Chinese red-yeast-rice dietary supplement, cholesterol-lowering effects of, 231
- Cholecystokinin, effect of age on, 999
- Cholesterol. *See also* Lipoproteins
HDL
and body mass, 614
effects of fatty acids on, 1135
LDL, measuring, 338(Letter), 339(Letter)
-lowering effects
of Chinese red-yeast-rice dietary supplement, 231
of dietary fiber, 30
of sterols, 1144
- Cholestin, 175(Editorial)
- Chylomicrons, from butterfat, plasma clearance of, 1151
- Cirrhosis
effect on energy expenditure, 1066(Editorial)
hypermetabolism in, 1194
influences on nutritional intake, 331
- Cobalamin
deficiency, 738(Letter)
in adolescents, macrobiotic diet and, 664

- Coffee, and protein intake, and serum homocysteine concentrations, 467
- Colon cancer, effect of transgalactooligosaccharides and composition of fecal flora on markers for, 980
- Copper, reduced phytate content and partially hydrolyzed protein in soy formula and absorption of, 490
- Cornstarch, and posthepatic glucose appearance, 1183
- Coronary heart disease. *See also* Cardiovascular disease
alcohol consumption and, 2(Editorial)
risk factors for, socioeconomic differences in weight gain and, 719
vitamin E and, 1322S
- Crohn disease
diet-induced thermogenesis and lipid oxidation rate in, 325
nutritional status and energy metabolism in, 339(Letter), 340(Letter)
- Cystic fibrosis
energy expenditure and substrate utilization in adults with, 913
fat malabsorption in, and impaired intestinal uptake of long-chain fatty acids, 127
growth status of patients with, 531
- Deuterated retinol dilution, and assessment of total body stores of vitamin A, 278
- Diabetes mellitus
energy expenditure and substrate utilization in adults, 913
serum and urinary magnesium in, 70
type 1, dietary fat and protein intake in, 153(Letter)
type 2
fructooligosaccharides in, 64
glycemic status and body fat distribution in population at risk for, 455
- Diet. *See also specific food or food group*
enteral, composition of and optimal absorption, 556
and gallstones, in southern Italy, 120
high-sucrose, and insulin sensitivity, 575(Letter)
macrobiotic, and cobalamin deficiency in adolescents, 664
risk patterns and disease-specific associations, 1351S
very-low-fat, not associated with improved lipoprotein profiles in men with predominance of large LDLs, 411
wine intake and, in Danish population, 49
